Our Values and Ethos

Welcome to Wimbledon Dental Wellness. We are a family dental practice in the heart of Wimbledon Broadway, with a focus on Excellence in Patient Care, Holistic, Preventative and Cosmetic Dentistry.

At Wimbledon Dental Wellness, we prioritise the overall wellness of our patients and place them at the centre of all our treatments and treatment journeys. As an experienced team of compassionate and talented dental professionals, we know that no two patients are the same and therefore no two patient journeys should be either.

We are a team of two sisters, who believe that good quality and ethical Dentistry should be affordable for all. We take the time to get to know each of our patients individually. Using your dental health history, lifestyle, personality and smile ambitions, we will build a bespoke treatment plan that works for you. For some of our patients, this means regular check-ups and annual hygienist visits. For others, it may mean a detailed treatment journey that takes in restorations and cosmetic treatments to achieve the smile that they desire.

Our 360-degree approach to Dentistry and oral healthcare means that we will look at your treatment journey from every angle. It also means that we will always advocate for your long-term dental healthcare, promoting preventive care measures wherever possible and only recommending intervention when absolutely necessary.

If you're interested in becoming a patient or would simply like to book an appointment, call us on **020 8150 3737**.

Our Team

Dr Pooja Pillay
Principal Dentist
BDS London

GDC Number: 194592

Pooja qualified from Barts and The London, Queen Mary's University in 2010. Pooja has a passion for good quality and minimally invasive Dentistry. Her primary interests are in all forms of general and cosmetic treatments including composite fillings, crowns, bridges, whitening, Invisalign and dental implants.

Pooja is known for her kind and gentle nature. She is popular with children and nervous patients. Her 360 degrees holistic approach to dental care is honest and comforting, a trait that all her patients appreciate. She pays particular attention to fine details and always ensures that all her work is of the highest standard.

Dr Yushmee Ramburrun
Principal Dentist
BDS (Bristol)

GDC Number: 228081

Yushmee graduated from the University of Bristol in 2012. Since then, she has cared for patients Surrey, Central London and Singapore. She developed an interest in a Holistic approach to Dental Care along the way.

Passionate about maintaining a positive dental experience, she always ensures that enough time is dedicated to listening to her patients' desires and concerns; of discussing all available options and thus creating a truly bespoke experience. Blessed with an eye for details, her simple philosophy is to use minimal intervention in a relaxed environment to create beautiful smiles for all.

Our Treatments

General Dentistry

At Wimbledon Dental Wellness we are dedicated to providing 360-degree care for all our patients.

Holistic Dentistry

We practice what is known as functional or holistic dentistry. This means that we focus on the overall health of our patients to promote their whole-body wellbeing.

Cosmetic Dentistry

Our expertise in cosmetic dentistry combined with our gentle, compassionate approach makes us the ideal choice for patients.

Teeth Straightening

Our highly experienced team are proud to bring a broad range of orthodontic treatments to our patients looking for a straighter smile, such as Invisalign, Six Months Smiles, C-Fast and Inman Aligner.

Dental Implants

Our skilled and caring team are able to offer a secure and comfortable replacement for a missing tooth with a dental implant. Whether you have been missing a tooth for a while, or are about to get a tooth extraction, we know just how important it is to replace a missing tooth.

Advanced Dentistry

We are able to offer a range of specialist services such as prosthodontics (advanced restorative rehabilitation), periodontics (deep gum treatment), endodontics (root canal treatment), oral surgery (surgical procedures) and orthodontics (teeth straightening).

Facial Aesthetics

At Wimbledon Dental Wellness, we offer wrinkle correction treatments as part of our range of facial aesthetic treatments.

Acupuncture

We can offer Acupuncture to treat dental issues such as TMJ discomfort, as well as anxieties and phobias around visiting the dentist.
